South-West University “Neofit Rilski”, University Building №1,  
Plenary Hall 114

Dear colleagues,

The Faculty of Philosophy at the South-West University “Neofit Rilski” organizes The Second International Multidisciplinary Conference: “POSTGLOBALITY: CRISIS AND FUTURE”. The conference will be held in the period 20–21 October 2022 at the South-West University “Neofit Rilski” (<http://www.swu.bg/>).

**Announcement:** The theoretical rationalization of the problems of globalization places in the foreground the problems of the character of the global reality and the global consciousness. If we are on the threshold of a new stage of social development, then we will have to look into the future. The processes of globalization are complex and multidirectional; the global Covid pandemic made them even more complicated and outlined the crises and the changes, the new phenomena and structures the modern men should cope with. However it contributed to the realization of the peculiarities of the era of globalization. Are we already in the era of post-globalization? Is it a new horizon appearing and which is more probable – the unity of the human civilization or its division? Is a change in our human values likely to happen?

**6<sup>th</sup> Doctoral Scientific Session:** The Doctoral Session will be held within the framework of the international conference. We offer young researchers a scientific forum on the thematic areas of the conference and the opportunity to give their solutions to the range of issues raised by the problem of postglobality.

*We look forward to meeting you at the conference to answer together to these questions in a committed, dynamic and interdisciplinary researchers’ community!*

**It will be a hybrid format conference:** in-person and online.

**Publication:** The approved articles will be published in special issues of the journals which are published by The Faculty of Philosophy of The South-West University after a blind review and in compliance with the editing policy of the issue: “Psychological Thought” – SCOPUS; “Postmodernism Problems – ERIH PLUS; “NotaBene” – ERIH PLUS; The Annual Collection of Scientific Papers of The Department of Psychology; The Annual Collection of Scientific Papers of The Department of Philosophy and Political Sciences, Collection “PhD Students in Science. 6”.
